

## IT

**MECCANISMO:** pratico meccanismo trasformabile da pouf in letto, l'apertura della seduta si ottiene per sollevamento e consente il passaggio alla posizione letto con un semplice movimento del telaio alloggiato sotto la seduta. Il piano dormita è realizzato in maglie elettrosaldate e dispone di un materasso in poliuretano h.12 cm. **IMBOTTITURA:** poliuretano espanso a densità differenziate, prodotto e assemblato secondo le vigenti normative CEE. **RIVESTIMENTO:** tessuto ed ecopelle: completamente sfoderabile. Pelle: non disponibile. **PIEDI:** integrato nella meccanica.

## EN

**MECHANISM:** easy convertible pouf to bed mechanism. To convert to bed, lift the seat and adjust the bed frame situated under the seat. The sleeping area is realized with an electrically welded frame. **UPHOLSTERY:** differentiated density polyurethane foam, produced and assembled according with the CEE standards. **LINING:** fabric or synthetic leather: completely removable lining. **Leather:** no available. **FEET:** integrated in the mechanism.
